Bill Steer
General Manager
Canadian Ecology Centre
6905 ON-17
Calvin, ON P0H 1V0

Dear Bill,

On behalf of Equinox Gold's Greenstone Gold Mine, I am proud to pledge a contribution of \$10,000 to help save the Canadian Ecology Centre.

For more than three decades, the Canadian Ecology Centre has stood as a cornerstone of hands-on environmental and outdoor education in Ontario, shaping perspectives, inspiring generations and helping bridge the gap between the public and industries like ours. You have helped connect educators and students to Ontario's mining sector in a meaningful and transparent way through the Teacher Tours. For many, these experiences are their first introduction to our industry. These tours have built trust, deepened understanding, and demonstrated how responsible resource development and environmental stewardship can go hand in hand.

I was deeply concerned to learn of the devastating storm last spring and the significant damage it caused to the Centre. The resulting one-year closure and financial strain would be a tremendous challenge for any organization. Yet, your determination to rebuild stronger speaks volumes.

I believe the mining industry now has both an opportunity and a responsibility to support the Canadian Ecology Centre in its recovery. I highly encourage other companies across Ontario's mining community to join in this effort. Together, we can help ensure it remains a place of learning, connection, and inspiration for years to come.

Bill, I wish you and your team continued strength and success as you rebuild. The work you do is invaluable and it deserves our full support.

Sincerely,

Bryan Wilson
Vice President, Operations Ontario
